

Total ODA and OOF flows to developing countries quantify the public effort (excluding export credits) that donors provide to developing countries for agriculture.

## Comments and limitations:

Data in the Creditor Reporting System are available from 1973. However, the data coverage is considered complete since 1995 for commitments at an activity level and 2002 for disbursements.

## Methodology

---

### Computation method:

The sum of ODA and OOF flows from all donors to developing countries in the agriculture sector.

### Treatment of missing values:

- *At country level:*

Due to high quality of reporting, no estimates are produced for missing data.

- *At regional and global levels:*

Not applicable

### Regional aggregates:

Global and regional figures are based on the sum of ODA and OOF flows to the agriculture sector.

### Sources of discrepancies:

DAC statistics are standardized on a calendar year basis for all donors and may differ from fiscal year data available in budget documents for some countries.

## Data sources

---

### Description:

The OECD/DAC has been collecting data on official and private resource flows from 1960 at an aggregate level and 1973 at an activity level through the Creditor Reporting System (CRS data are considered complete from 1995 for commitments at an activity level and 2002 for disbursements).

The data are reported by donors according to the same standards and methodologies (see here: <http://www.oecd.org/dac/stats/methodology.htm>).

Data are reported on an annual calendar year basis by statistical reporters in national administrations (aid agencies, Ministries of Foreign Affairs or Finance, etc).

## Collection process:

A statistical reporter is responsible for the collection of DAC statistics in each providing country/agency. This reporter is usually located in the national aid agency, Ministry of Foreign Affairs or Finance etc.

## Data availability

---

### Description:

On a recipient basis for all developing countries eligible for ODA.

### Time series:

Data available since 1973 on an annual (calendar) basis

### Disaggregation:

This indicator can be disaggregated by type of flow (ODA or OOF), by donor, recipient country, type of finance, type of aid (project agriculture sub-sector) etc.

## Calendar

---

### Data collection:

Data are published on an annual basis in December for flows in the previous year.

Detailed 2015 flows will be published in December 2016.

### Data release:

December 2016.

## Data providers

---

Data are reported on an annual calendar year basis by statistical reporters in national administrations (aid agencies, Ministries of Foreign Affairs or Finance, etc.
